

**LIGHT CUBE CLUB HOUSE**

# LIGHT CUBE CLUB HOUSE

## CONCEPT

Large area of acrylics is adopted to form many small and luminous acrylic cubes which creates a luminous wall with architecture structure quality through artistic combination. Acrylics itself is a kind of material which can luminous evenly. Together with LED light and combination of light, shadow and structure, we create a curtain wall of light and shadow. Then make the luminous wall a complete light cube which brings the application of light into full play.

# LOCATION

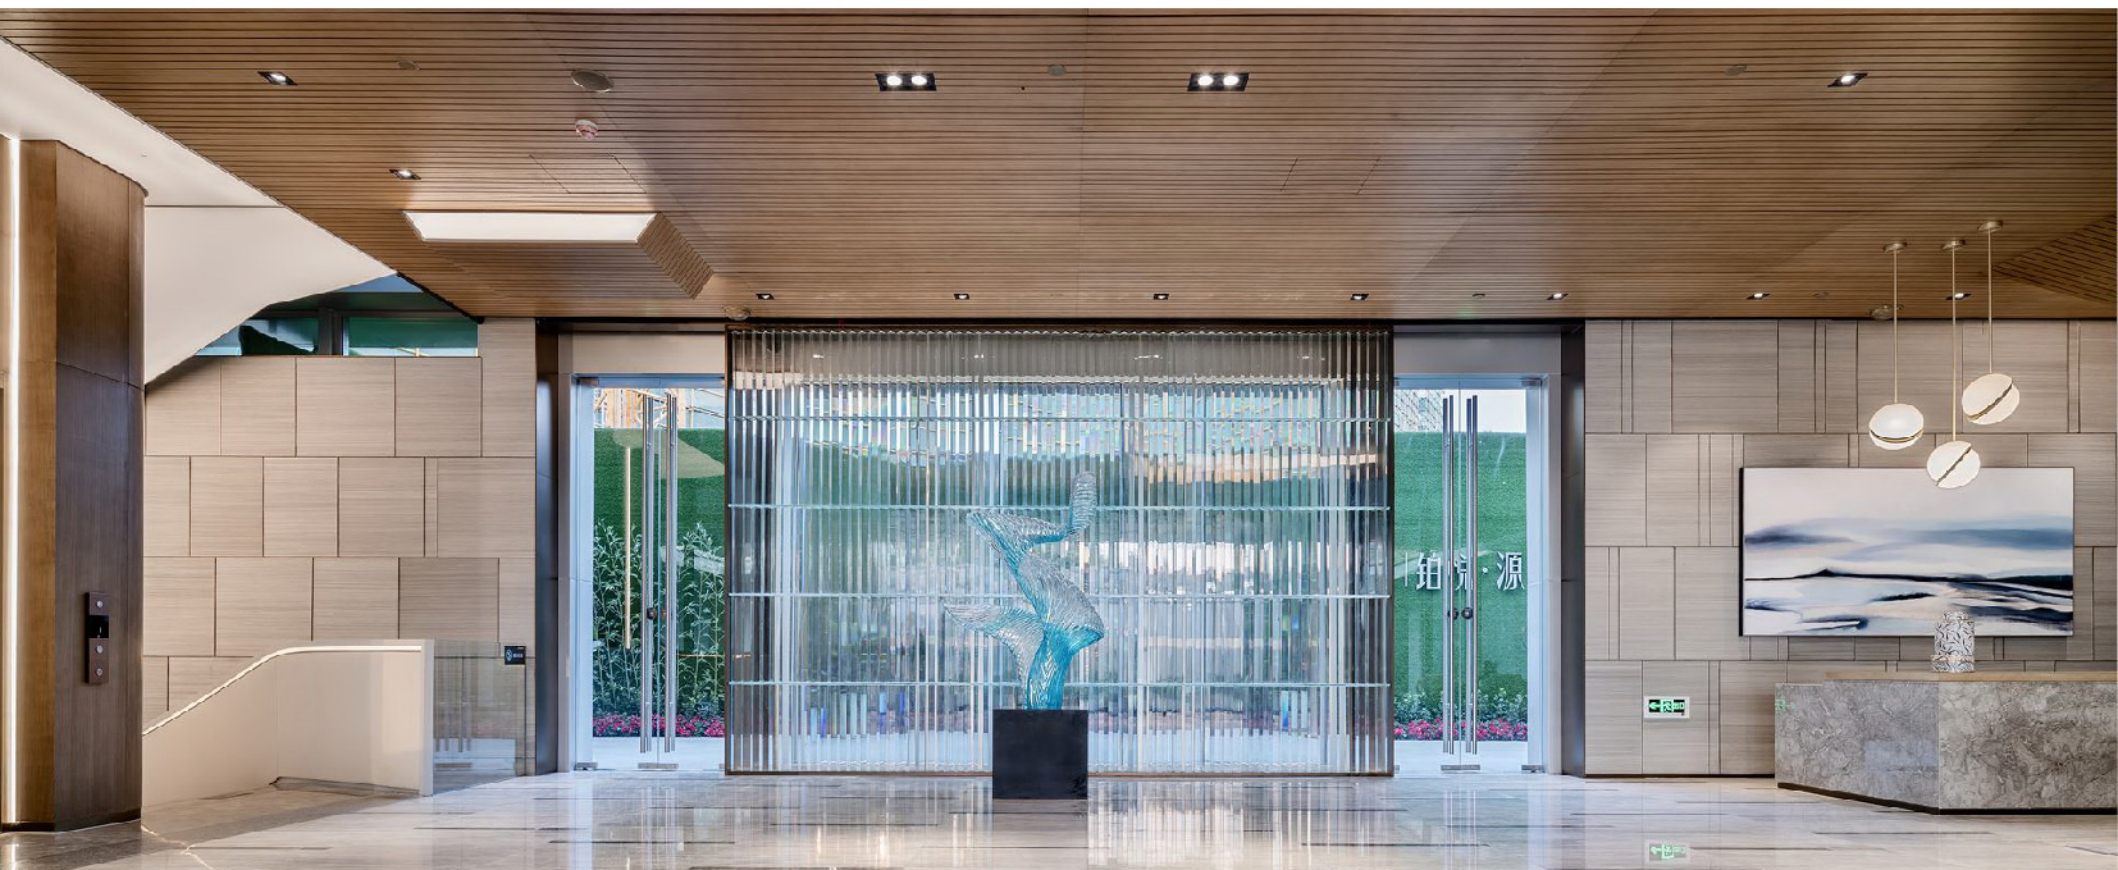

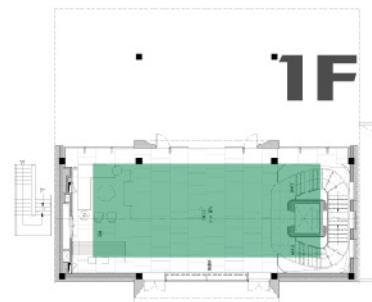

The project is located in the historical name of the Jiulong Lake section of Jiangning District, Nanjing. The project site is northeast to Qiying Road, southeast to Yunshanhe Road, southwest to Shuanglong Avenue, and northwest to Zijin 3rd Road. Convenient transportation and excellent geographical environment, relying on the natural rivers of Jiulong Lake, it provides excellent natural landscape conditions for the design of the project.

Project name: CIFI MANSION CLUB HOUSE  
Design unit: KRIS LIN INTERNATIONAL DESIGN  
Construction area: 1800m<sup>2</sup>

# ZF

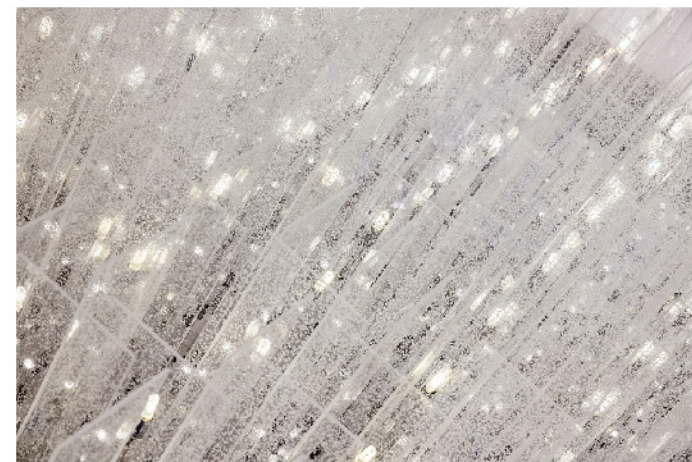

A large area of acrylic to shape, neatly arranged arrangement, to create a light effect, the use of "light" and "shadow" combination, to create the texture of the light and shadow curtain wall. Make the entire space bloom with the ultimate style. Show the use of light to the fullest. The light box that looks floating in the distance creates a focus on the visual senses, which is striking and natural.

To go to the complex, low-key luxury to create a classic gorgeous, casting a high-grade artistic atmosphere.

With the visual aesthetic aesthetics to create space, combined with contemporary aesthetics, focus on spatial quality and craftsmanship, combined with natural light and shadow elements, express modern leisurely, elegant space feeling, large area using acrylic, highlighting natural texture and texture performance, combined with art A low-key luxury space that reflects the natural and humanistic feelings.
