主要建材：塑環木、斬石子、  
松木、水泥粉光、鐵件、硅藻土

Site location: Miaoli Taiwan

Type of construction: Residential villa

Construction of size: 112 square meters

Spatial pattern: Three bedrooms and two living rooms

Main building materials: Plastic ring wood, Cut stone,  
Pine wood, Cement powder, Iron parts, Diatomaceous earth

# 設計方法

## Design Techniques

室外 | 7字型形構 環抱山林安身棲所

因應先天的地勢環境，奠基於綠地之上，鋪述泥作橋樑，以7字型形構，寄寓安身棲所之想望；連接斜面屋頂，將迎光面予以延伸，增加日照，連動光、風、綠意，圍塑一片河畔光景；

讓兩隻特愛玩水的毛小孩，能夠盡情戲水，於2樓露台俯瞰，便可一覽清澈湖光，一家人於此，恣意徜徉，共享天倫之樂。

Exterior | The 7-font shelter embraces the mountains and the forests

Take the advantage of the natural terrain and environment, and construct a cement bridge. The 7-font structure implies the shelter of dreams; and the pitched roof extends the light side, further to introduce more sunshine; the surrounding merge the daylight, wind, and flora, as well to setting off the riverside landscape.

The two puppies can enjoy playing in the water all day long. Their loving pets can enjoy playing in the water all day long. The terrace on the second floor, where can appreciate the lake view clearly. Thereupon, the whole family can gather here to wander and share the leisure atmosphere with ease.

## Design Techniques

室內 | 生態綠建材 環保X節能X健康

年歲流轉，回歸純簡，屋室同理，  
提取自然元素，運用綠建材鋪陳安排，  
素簡肌理刻畫原始面貌，相融相生，閒適怡人。

透過反覆3D模擬測試，精準計算開窗位置，  
廚房上方特別劃設天井窗，引入日光、風動，  
兼及環保節能與環境健康，之於空間，擴及生態，  
自然風動的設計概念，宜居宜人。

As time goes by, with the view of simplicity, pick natural elements and make use of the eco-green building materials layout. The concise texture depicts the original appearance, further work concert with each other, and then to be comfy and pleasant.

By way of the repeated 3D simulation test, the position of the window is accurately calculated. A patio window is particularly set up of the kitchen ceiling to introduce the sunlight and breeze, at the same time, takes the advantages of environmental protection, energy conservation, and health features. The design concept deliberates the living space and the environment, which brings about a wonderful paradise.

## 項目定位

### Design Proposition

本案業主為一位正值事業高峰的女主管，從小在這片山林環抱下的小丘中玩耍，對這裡有著不可言喻的深厚感情。承襲對這片土地的情感記憶，便計畫於此築一座清悠家屋，予以年邁的父母，讓一家人回歸原生居所、重拾溫情。

The property owner of this case is a female executive right at the peak of her career, who has been grew up in this hill, hence has an indescribable deep affection of the land.

With the emotional memory inherit of this land, generate a notion of building a tranquil and comfy house for the elderly parents, so that they can live in the original residence and appreciate the family warmth.

## 項目定位

Design Proposition

因著他們所喜愛的工業風，加乘當地的氣候環境考量，空間規劃上，以機能為始，以自然為終——褪去喧囂外皮，挹注質樸內裡連接室內外開口，讓居者、空間、自然三者融於一室；使院墅不僅圓一方美好圖景，更傳遞屋主心中所期盼的生活方式。

## 項目定位

Design Proposition

汲取輕工業風元素，融匯為一處精神樂土，因而以Loft Spirit為名，孕生蔥鬱山色中，靜靜流淌新尚氣息，為心神嚮往，為生活詩意，為自然賦予的立身哲學。

Exploit the elements of light industrial style, integrate them and bring out a spiritual paradise. Accordingly, take the name of "Loft Spirit" which with the meaning of birth from the lush mountains, and gently emit the stylish atmosphere, moreover yearning for the spirit philosophy and poetic life that endowed by the nature.
